### Acts 4-8 The Message Bible

“From the time of my youth, my life has been lived among my own people in Jerusalem. Practically every Jew in town who watched me grow up-and if they were willing to stick their necks out they’d tell you in person-knows that I lived as a strict Pharisee, the most demanding branch of our religion. It’s because I believed it and took it seriously, committed myself heart and soul to what God promised my ancestors-the identical hope, mind you, that the twelve tribes have lived for night and day all these centuries-it’s because I have held on to this tested and tried hope that I’m being called on the carpet by the Jews. They should be the ones standing trail here, not me! For the life of me, I can’t see why it’s a criminal offense to believe that God raises the dead.
